

EBC Summer 2015 Sermon Series

The Bible says there is no end to the making of books and that becomes truer every year. The number of available books continues to multiply while busy Americans read less and less. Now more than ever it is important for Christians to purposely choose books that will be most helpful in nourishing their faith in God.

The purpose of our summer sermon series, entitled **Good Books**, is to highlight ten books that are definitely worth your time. Now, the Bible is THE Good Book because it alone is the very Word of God. But we will be exploring small 'g' good books written by people who know God and His Word well and who have captured in print a uniquely powerful glimpse of Him.

Each week this summer we will provide a thumbnail sketch of one of these good books and its author and preach a message from a Scripture that effectively reflects the primary point of the book. So find a comfy place to sit, grab a good book and feed your soul.
